□□□

“Love in the buff” the biggest characteristic is that it is not like the movie very much, it’s more like a person in the dance of adding to their elder brothers or girlfriends about their recent period of time. In fact, these so-called emotional experience, the narrator is often not himself, engraved on the object and tell most feel dull, nor is it a butterfly lovers, zhu JueLian life and death, there is nothing can go beyond people’s imagination. “From jiao” is originally a mayday song, this is two men and women of the most common name in Taiwan, of which is the most common way of love, even if is to capture the thought the most interesting one of the most emotional appeal, sounded to others but also is the hair spring temple syndrome. Wit to pang, he should be able to realize this, how to make a film of pure chat not so boring,

so he USES swearing and yellow to adjust atmosphere. Was people to the vulgar taste of normal in daily life, but after the big screen magnification, the audience immediately there is a kind of steal the drug, so the film in Hong Kong is classified as a level 3, can say it is a promotion strategy director is very smart, or so extremely small and light, the theme and form of thrown into film market would be “swamped” immediately.

Film is a big background of the Hong Kong government ban smoking in public places, in fact, cigarette itself has a strong symbolic meaning, represents a kind of negative and unrestrained attitude, while the last two people made a seems to make people feel a trace of light and positive decision, but I can’t get rid of the film or pessimistic tone of despair. Plot is a very important, once pointed out in the interview VCR will remarkably girlfriend chi Ming let her hard to bear most of childish behavior, the tzu chi jiao happen again between the Ming and spring, although the wonderland toilet under the tender feelings sweet meaning of the two full of expectations of love, we through the move can be foreseen that two people in the future of life will inevitably encounter the sad ending, the despair of life do not need to explain, it is a normal life, is people’s endurance test, rather than the feelings of metabolism

Drama about tzu chi from advertising companies to Ming (shawn yue) and work in the cosmetics department spring jiao (Miriam yeung) met there, chi Ming’s misfortune as well as the spring of jiao cigarette action let spring tender affection for the gentle man rare. In the next few days and nights, two people from time to time, send text messages and meet the corner smoking. Feelings transmitted through the thumb, love in the smoke, a vague message eventually lead to spring jiao break up with her boyfriend home hao (Huang Debin). When spring jiao ready to devote relationship with tzu chi Ming, Ming’s attitude has become confused. Continue to smoke at the corner after lane hover, but was not able to bridge the gap between two people. With increased tobacco taxes to issue, the smokers

have started to search for and stockpiling cigarettes. In the smoking process, tzu chi Ming and spring jiao the convenience store in the first time they met again.
Favorite “from jiao” inside a gaudy sing K, they sing is ZhenNi “the last rose,” this one. When tzu chi jiao no advance and retreat of the Ming and spring, also do not have to work around a circle, no enemy don’t say I don’t speak, enemy said I was denied. And this is after a karaoke scene SMS attack and defense in the sweet music. Careful testing, who also don’t speak first, copy is like who love to drop off by, I hate this kind risk.however, I hate such calculating, but fell back to their often is like this, but failing. While I’m still feel the love is one of the most wonderful thing in the hours before the ambiguous time, one is at the beginning of love, but it don’t be too ambiguous knowledge
Also like a interview spring Jo is said why I smoke that – at first like a boy, in order to close to him, to learn to smoke, and specifically to find what brand he smoked, often get smoke in front of him as casual, everyone from smoking began to open the topic, the results look he tells her that she prepared to give up smoking, because he met a girl, but the girl don’t like smoking boy. Spring jiao has just said “OK, ah, ah good”. It can even more than this, because it showed more cruel face of love, no movie’s tail show sweet smooth, but full of bitterness of not for a third person to know and shall not, don’t put.
Finally oh, completely personal feeling, I think pang is perfect for that kind of love and laughter, black with bright, hate and slag, is CuiShengSheng lai xi xi, but if he called Turkey, I mean, really tough, he seems to have a little confused, I can’t imagine, for example, from jiao really together, not so handsome, so not port of female, less like elder brothers and point the finger in the distance of the alienation of love. , however, that not a pang proposition, volunteers from the two unreliable youth own sexual love is love, as you can from this relationship on many dust, such as: not at first sight, not handsome and pretty girl ah not

goldwind high curative value, not vows of eternal love, but these are all the luxury of love, without the luxury of ajay love, actually it is still not perfect. So, in fact from jiao is perfect men and women relation, because the story stopped until they obtain harmonious trust only a moment…
