When Street Arts run across Tourism

You know, when two funny guys run across each other, there will be always a hit between them. So, can you imagine what will be like when Street Arts run across Tourism? It must be fun.

By: LanYing Huang 130907216 CLASS 2

I once heard a story about a town, Sheffield in Australia, which was a relatively backward area. However, the residents of Sheffield revitalized their homeland by Art. After discussing how to reform and innovation, at last some residents proposed to develop the tourism in order to attract more people to come. An inventive style of Art—Draw mural painting came up later. With the remarkable improvement and great effort, the town has realized its blueprint. The murals attract an estimated 200,000 people to the town annually. What a big change! Wait, wait, it’s not the only case to run across.

Huangjueping graffiti street is located in Chongqing City, is the Chinese and even the world’s largest graffiti art works. Chongqing graffiti art street is attracting more and more people to come. This street has become the first to Chinese graffiti art. Huangjueping graffiti art also takes on a new aspect, has become a new place for tourism in Chongqing. It is understood, graffiti street is to promote an innovative initiative of cultural and creative industries in Chongqing City. At that time the Huangjueping has the appearance of many old buildings are dilapidated, in urgent need of transformation, then the government boldly and Academy of Fine Arts artists after several times to discuss, finally determined to graffiti this form as a retrofitting scheme on this area of appearance. All of this really make a great difference. A tourist city must has something related to Art, or it seems less vigor, passion and artistic atmosphere.

Street Art more or less gives the city visual shock, a feel of freedom and injected new vitality and unique elements. If you are into Street Arts, there are some good place you can visit. First , The Berlin wall remains colorful graffiti that known around the world. In 20 years, East Gallery gradually becomes one of the most popular tourist attractions in Berlin. Second, The National People’s Congress graffiti wall located at people’s University in Haidian District Road, which is the largest, the largest area of a graffiti wall. In November 12th, after the Olympic countdown 1000 days, the wall was named “Beijing wall”.

Maybe you can run across them next time. And there is other matter I want to suggest, if we happen to fall in love with two interesting things, maybe we should try to find a way to let them run across and combine them in order to get full use of both and then people will see something unexpected. Just like the Street Arts and tourism. No soul, No spirit, the city will be dying . Street Art brings a new spirit to the city, which will sure helps the development of tourism. I strongly recommend that city should welcome Outdoor art behavior. Do you support me? Let some beautiful run across.

Be a journalist, see the changes of China during the ten years behind news

To see is an autobiographical book of a well-known journalist Chai Jing. At least 1.5 million of the books had been sold. It’s a big number for a writer in China. It tells Chai’s growth in CCTV and changes of China during the recent decade by a journalist view. Ten years ago she was chosen to become the national television news anchor. Because of inexperienced,

she suffered defeat. Nowadays she becomes a famous reporter, after a decade’s experience.

Do you remember SARS in 2003? It’s a big catastrophe. We think doctors and nurse are heroes at that time. But we forget people who reported these are also heroes. In this book, Chai recalled the things in this book.

In April of 2003, SARS became more serious that make people panic. The fear of people comes from unknown situation. The best way to know all of the things is going to first-line to interview. But when she saw patients at first time, she was frightened. People who get SARS lay on the bed without any expression. At that time she knew what desperation is. The deathly silence made her uncomfortable. “You can smell the smell of death” Chai said. By her report, the public begin to know how situation is.

When faced with disaster, people recognize the preciousness of life. Chai and her colleges lived in a hotel. There were no people in the hotel, even the staffs in the hotel had gone to their hometown. Chai and her colleges begin to think whether they may get SARS. The heart beat make she felt that life is so real. She received a message from an unknown number: I’m very pride of your courage. If you get SARS, I will marry you.

Fortunately, she and her colleges were safe. But many doctors got SARS in one hospital. She went there to investigate what happened in this hospital. A doctor who worked in this hospital told her there were not well protection at that time. “And what did you use to protect yourselves?” Chai asked. “Only courage” the doctor said sadly. 75 people got SARS and 45 of them died.

During ten years, there were many things happened in China. SARS, Earthquake in Wunchuan, Beijing Olympic Games etc. Through these things China is growing. Chai is also growing as

a journalist.

Chai is a good journalist because she cares about people in news. She is patient and listen them carefully. Another reason is that she is an objective. “There are not good man and bad man in this world. There only people who do good things or bad things” Chai’s college told her .As a journalist you should bring fact to audiences. Many journalists like to guide audiences to get more attention. It’s wrong. People have their right to analyze an event. In this way, people will become more independent and freedom and countries will become more democratic. Journalists are eyes of people and conscience of a country.

“It’s an excellent book. I recommended this book to my friends.” An Internet user from Amazon said. You will not want to miss it, if you want to see something invisible behind news and view the world wisely like a journalist. You can visit Douban for more information about the book.

Such a life, do you like?!

I introduce a man who describes his campus life in his age. He describes how to learn wash clothes, allocate money, and talk with friend or lover and so on.

By: Taotao He 130306136 Class 2

Some days ago, I interviewed a person in the age that internet and smart mobile phone don’t appear. And he told me some things that is showed in follow.

“In life, we rarely take the clothes to the laundry to wash, and we all wash the clothes ourselves. Of course there will be people that they are not able to wash clothes, after we find it because they cannot put it all down according to a letter sent to the we chat, so they can together face to face in the water room laugh at him and despise him Then he would certainly not satisfied, laughing back to the curse, a last-ditch fight for the hedge will not be so easy to get angry like otaku, we cannot put everything sent to the we chat.

Each person’s skills and expertise, at that time, the basic will get some use. We will write poetry can go propaganda, and the students that have art skills can enter the student union.

And the talkative or quick thinking may participate in the debate competition. The pushy when all kinds of school and may Moderator college programs.

And I, as a science student, in fact my math is poor very much. But I was not useless, after all my words is very good, although it is not first-rate, but it is pretty than most of the students have not practiced the word. So I often help others. I remember I helped a classmates in thestudent union which declared the painting to painting room late, despite it is a very bad picture, but the we are laughing and chatting nonsense telling of the past, and no we chat’s and message’s bother. So we relaxed painting late into the night, finally complete the task. The next morning, a large plate of a piece of sensational publicity activities appears on all roads go through the school for everyone to enjoy, or cast aside, but I met those already in full color and text in the.

In the winter, the school has a slope of roads will freeze, I will frequently born and it is very embarrassed. Then my classmates will help me, of course, I would not rely on help me. As usual, the students in south of China will be laughed and despised, and after laughing at the north of the students will teach us skate or skate along with us . Snow big time, everyone cries banded together to fight a battle cattle cross the snow. Department of Architecture, many people, often with grades as a unit, the sky snow in a scuffle, there are always passionate young or anger show alone was outrageously out of the trenches are then instantly annihilate each other, and there will always be you are not raising his hand a be careful to hit each other a girl, there will always be your UFO lying face hit the door slamming when complacent, always one offensive and one negative was gradually broken up and still surmount . Regardless of the results of the war, the people will greet the end of the snow, thunderous applause. Such moments of joy, should not Apple can bring .

After lights out, as usual, is all kinds of chat, nonsense and

laugh. Covering all aspects, from the girl’s face shape, you can talk about Western art, and then to the deep outer space and even worldly people’s sufferings. The rise comes even be triggered impassioned debate and even majestic individual presentations at this critical juncture; we would eleven lying give your score, cut, or not cut. PK sometimes not ending, the judges and the voice of the players will be gradually increased to disturb the neighbors, until the instructor roar outside, objective and rational manner by threatening to repair our school rules. To the exam season , someone poor review, uneasy , you need to lowly place candles or open emergency light reading, bedroom atmosphere created by their unusually strange panic. There’s even a studious person reading by the light in the hallway , and even perverted in order to complete the job drawings strapped drawing board in the hallway, bedroom, foyer, these are the various views of the middle of the night . At the time we really did not think , after a few years, so there could be so many digital products, you can lie on his bed after lights out to see ah !

With today’s most distinguished students who also made □□us the most exciting part of the excitement and undoubtedly paper correspondence. At that time, the emergence of cellular phones and motorcycle L2000, but not that we have the ability to use. No micro-channel, no MSN, no we chat, of course, there will not be unfamiliar street, at most there is a pager. Apart from using a public phone at night to carry a greeting from afar , and more, we will spend some time writing letters full of emotion , and the rest , that is to wait and miss it.

A letter will arrive on a few days, a week or even more. Wait and miss, so all of this, the United States a lot. This experience is meaningful and beautiful, but also cannot get again. Letters , we quiet down, sort of ideas, experiences and the changes in their detailed depiction of this period of time, to tell each other their hearts; letters , we honestly and calmly express their emotions and feelings; letters, we

see true to yourself, but also to see the real counterpart. The Letter, in fact, the number is minimal.

The past decade is not necessarily better than nowadays, but it must have its bright side. The focus I want to express that in those without much technological toys of the era, the distance between people is indeed very close, and our time is indeed happy and fulfilling, memorable and beautiful. I really nostalgic , is to beautify the past, because in my opinion , in those days , such as the moment , many years later can become good memories . But do not think I ever painted, is to obliterate Now, not so. I regret to say the year of our youth, apparently was not intended to deny the current students who ridiculed the youth. He is the youth of this youth, will certainly be gorgeous lovely moment, it must be noted. With advances in technology, life will be better, of course, and indeed more beautiful. Because I love my present life and times, but also because there is now a technological convenience, I will occasionally see this problem in the middle of the night when the fast write these words about the memories, I 'll be tempted to think the time Some touching flashback presented to the dwellers , some of the sense of pain and laughter when talking dwellers do share, nothing more. Thank you."

The story has ended here. And such a life, do you like it?

However, one of them that must be mentioned. She is so beautiful like an angle from the heaven. She is loved by almost everyone not only her beauty but also her kindness. Guess who she is? She is the actress in <ROMAN HOLIDAY>, she is Audrey Hepburn!
By: shi mi Chen 134302124 Class2

When the first time l saw her, l fall in love in her eyes, Her eyes look like a story. In Roman Holiday, she acted as a princess. She won the Oscar Ward for this film. l think everyone knows the film <>. In the play she wore a black

strapless dress beautiful shadows make fans think constantly of, this costume opportunity at Christie’s in London, sold for 410000 pounds, became the “most expensive” costume.

In the epic movie “war and peace”, play a well-known actress in the drama “Natasha Audrey”. This is Audrey and her husband Mel Feller for the first time in the film.
Movie “wild oats”, as a fashionable dress exaggerated telephone operator in the movie; movie “laughter in paradise”, Audrey plays a sweet sexy sell cigarette girl in the film; the movie “robbery armored car”, as “Qi Ji tower in the film” (Chiquita), and actor Alec Guinness performing opponents play movie “young woman” (Young Wives’Tale) anecdotes, in the play, Audrey played a single beautiful typist; movie “Monte Carlo Baby” (Monte Carlo Baby), because Hepburn knew French, so in the “Monte Carlo Baby” of the English and French versions as the same role; movie “Shu Yan”, as “Nora Brentano” (Nora Brentano), during the election campaign, the director announced that Audrey is the first candidate for this role.
Movie “forever”, Audrey guest stars as a noble, nostalgic angels in the film. This movie is Audrey’s celebrity for. I think no one can act better than her in this film because she is the angle in our heart.
I think the most important thing is that she not only has

beautiful appearance, the Hollywood actress inherent, and others can not better than acting can be said to be a born actress, is a precious treasure in movies.
In fact, Audrey Hepburn is just a microcosm of the development of the Hollywood film. Nowadays, more and more people love the movies, they love Audrey Hepburn, until today, although Audrey Hepburn has passed away, she still was the goddess of the same in many people's mind, this is not only attributed to Audrey Hepburn's own charm, but also because of the Hollywood film strong star power.

Why Taylor is so keen on taking street snaps?

Taylor met her friend on the side of the road in a red skirt today; Taylor took the dance training course in the afternoon wearing a pair of Nike Air Max; Taylor, carrying her beloved black barrels pack, went shopping again. Taylor! Taylor! Why always her? And, who is Taylor Swift? She is a singer,but why is the rate of her street snaps so high? How do the reporters know exactly her where about? Is she really pleased that these reporters follow her wherever she goes? Why is she so crazy about fashion rather than pay more attention to her music albums? When people read the fashion magazines, they will invariably see the latest street snaps of Taylor. Perhaps her frequent appearance caters for her loyal fans, who are delighted to be informed of whatever happens to her. However, for most of the readers who know little about her or despise her, she is rather a nuisance at all.

By:Fu Dongyang 110909121 class 2

Taylor Alison Swift is an American country pop singer—songwriter, guitarist and actress. In 2006, she released her debut single “Tim McGraw”, which preceded the release of her self-titled debut album. Her album was certified Platinum several times by the Recording Industry Association of America.
Taylor released her second album, Fearless, in November 2008. According to Nielsen SoundScan, Taylor is the highest-selling artist of 2008 in the United States with combined sales of more than four million albums. Taylor’s Fearless and her self-titled album finished 2008 at number three and number six respectively, with sales of 2.1 and 1.5 million. Fearless has topped the Billboard 200 in 11 non-consecutive weeks, a feat no album has spent more time at number one since 1999-2000. According to Forbes, Taylor is 2009’s 69th most powerful celebrity earning $18 million.

But according to the fashion magazines, many readers may wonder why Taylor is so keen on taking street snaps by the entertainment reporters? Is she really willing to let her daily life known to the public? Does she need to sacrifice her privacy so as to capture the attention of her fans?

To these questions, my answers are absolutely yes. Here are the reasons.

First of all, it is hard for Taylor not to catch people’s eye. As we can see, she has a height of 180cm. Long legs, beautiful face with perfect shape, coupled with fair skin, she is more like a super model than a singer! No wonder she becomes the object of paparazzi every day.

Second, Tyler’s fine character gains her great popularity. For one thing, She is very cheerful and approachable, which makes it pleasant to work with her. For another, she knows very well what she wants from the media. Exposure rates means almost

everything for any star. While she is reluctant sometimes, most of the time she has to cooperate with paparazzi. I think both she herself and her team understand the importance of exposure to her. So taking snapshots can be a mutually beneficial thing. We must admit that Taylor’s professional quality is also very high.

Third, Taylor, in common with stars in the cycle, knows that it is impossible to please everyone. Though some readers feel bored with her frequent appearance, she still has a large number of fans who support her and expect a lot from her. So she must do something, for example, by offering lovable pictures and street snaps of high quality, to satisfy her fans. She should never let them down. After all, for the fans, it is always a pleasure to see their idol in any way, even if her story has nothing to do with music. In terms of this, it is best for her to get the highlight of the media.

To summarize, whether you like her or not, whether you are willing to see her street snaps or hear her songs, we have to admit that in the society where people advocate sexy. fame and wealth, many stars have to establish themselves in the entertainment circle depending on strange style or distinctive look, Taylor can easily get the attention of people from all walks of life in a mere way of street snaps. She doesn’t need to sacrifice her dignity or get involved in scandals, it is really admirable for a female star.

Maybe in the future there will be more about her street photos. I do hope we can be open to the graceful girl, for she is indeed a feast of eyes for those who love fashion.

A vivid dream of polka dots

As an ordinary person, the world of art seems to be very far from our daily life. A lot of people lack of interest of art exhibition, perhaps it is because there is a gap between artists and us. It is likely that to understand the meaning of many art works is difficult for us. However, Yayoi Kusama exhibition a boom, let many people rarely picked up interest in art, trying to feel the real world of art. Why do so many people so keen on the Yayoi Kusama's work, hope that by this article to explore.

Zhang YuHeng, 110909241, Class 2

Following the recent Dior exhibition, 'A dream I dreamed' was another popular exhibition in Shanghai. People interested in Dior exhibition could be well understood, Dior is a well-known brand name all over the world, whether to buy or not to buy it, people all want to go to see her style. Or the exhibition

of Monet, who is the world famous artists, who do not want to watch the painting by their own eyes? However, before the exhibition, the audience knows nothing about Yayoi Kusama at all. It is hard to deny that its boom seems to be kind of weird.

People first impression of this strange exhibition is “dot”. It was likely that her world is form by dots, the interpretation way of the world aroused my interest, and at least, it is an important reason why I went to see the exhibition. I am unable to hold myself back to know, using dots to interpretation her own world, what she really want to express? How did she use the complicated pattern to express her own mind? The answer of this question must be answer by myself after I watching it. I guess there are many fans of polka dots like me, deeply attracted by the impression of it. We almost never see any exhibition give simple but strong impression to the audience like ‘I have a dream’ before. It is common that the posters of the exhibition cannot find any clues of it. However, her works is too strong, can let a person immediately familiar with her style. Probably because the exhibition style approaches to daily life, Yayoi Kusama gives us a hint that we can understand her.

It is worth mention that, there is a psychological study popular in recent years. Many people have claimed to be intensive phobia, seeing intensive things makes them could not help sick. These people can not accept anything intensive, but the funny thing is, there are a lot of intensive phobia patients are also eager to see the Yayoi Kusama exhibition. This strange mood somewhat dumbfounding people, even many people call it the “intensive fear exhibition”.

However, many people do not know the story behind. Kusama fears about trauma since her childhood and she had lived in New York for a long time, which was dominated by male powers. However, her works was not to show what she can see in the world. Kusama created thousands of dots and net patterns to

conquer her fear towards the life, and by the works she turned her horror into something funny and familiar. According to her biography, she said “in any case, I was terrified of sex, and of the phallus. My fear was of the hide-in-the-closed-trembling variety. And it was precisely because of this that I made tons and tons of these shapes. Creating them, putting myself right in the midst of the horror, helped me to heal the wounds in my heart and, little by little, escape the fear. Each day I would produce forms that I gradually turned the horror into something familiar.” That may give people who are fears of intensive deeply thought about how to conquer fears. It is possibly that many people believe that the feeling of familiar can heal their afraid of something so they came to the exhibition and try to be relax and enjoy.

Known as one of the most international country, Singapore is a very thoughtful country who embrace his guests with full welcoming. After you arrive at the airport, you can find a bus of Hotel Shangri-La Rasa Sentosa Singapore, take out your receipt of your room, and you can get on the bus which will take you to your hotel directly. For me after an exhausted tour on the plane, nothing is better than a convenient trip on a comfortable bus.

After a pleasant trip on the bus, now, what's in front of you is exactly the place you are going to stay for your holiday. No matter you are a high-pressure white collar, or a "awesome" school student, you'll love this place, the one and only hotel on Sentosa Island who owns its own beach, Hotel Shangri-La is definitely the most livable hotel in Singapore, friendly and thoughtful receptionist, clean and spacious room, the amazing and unique view on your balcony, Hotel Shangri-La Rasa Sentosa have complete and utter believe in herself to make sure every guest is having their

great time.

Talking about lazy, nothing is easier than just stay at the hotel, going nowhere further than 200 miles, just stay at the hotel, I’m pretty sure it can meet all your needs of entertainment. First of all, after a baby-like sleep on your comfortable bed, you can go to the canteen, have a nice breakfast outdoor or indoor, there’re local foods also other country’s foods, all of them taste great. During your eating there, probably you will meet some animal friends, there’re monkeys and some very pretty little birds, peacocks join you sometimes also. After a pleasant meal in the morning, you can go sightseeing…oh, wait, that sounds pretty tired. You can do that, the hotel has so many free buses going all over the island, which is also pretty convenient. Or, totally lazy, just go to the beach next to the hotel, yes, the one so close that you can see on your balcony. Swimming, taking a sun bath, building a sand castle, it’s your call, as long as you are having a good time. Even that sounds too far? No problem, just go to the swimming pool, which is fun and close and you can order some nice foods there! For a relax moment, I really recommend the spa in the hotel, it’s really good, and the point is you don’t need to move a single finger!

Do sightseeing is great, but what I just told you, is a whole new way to enjoy a certain place in a country. No plans, no aims, it’s all about no pressure and relax. Lazy? Yes! So what? Lazy, and proud!
