Discover all the wonders

I think a problem most of the time : what's the instinct with the people since we born? Eating? Sleeping? Or love? Devotion? Of course,different people have different opinions, all the answers above are right, but today, i want to tell you a magic power——discovery.

I have always thought, In the big category of the film, animated films have been a special category, they take a lively way and be liked by adults and children in worldwide. Several days before, i watched a excellent film named< The Croods >. This is an adventure comedy filled with laughter and dangers. The story is set in prehistoric times, tells the story of a primitive family living in caves to leave the cave adventure travel experiences.

Primitive Croods family of six living in the shelter of the father Grug. Snatching ostrich eggs for food each day, avoid the chasing of the beast, listening to dad narrate the same story every night, living static lives in a cave. Eep is the elder daughter and she is a curious girl who opposites Grug's character, she does not satisfy the life stay in this single cave. Eep intents on chasing the novelty of the world outside the cave. But they don't expect the sudden end of the world coming, the

cave has been destroyed, the family is forced to leave their homes and start a new journey.

Most of the people have been attracted by Eep's adventurous spirit of discovery, so do i. In this film, you can easily find the differences between Eep and Grug, one is always adventurous and loves fresh but another always worries about everything that could be risks and expects a lifetime to stay in the safe cave. Eep's past exploration was always relentless opposed again and again by her father. Although he knows there's a greater and more colorful world outside, perhaps fear of the unknown overcomes courage before, Grug did not take that step. Of course, he can never imagine how exciting is the magical world outside. Discovery, makes all the sweet dreams come true.

In reality, We sometimes stop moving forward because of fearing falling or injury. Our old shelters can protect ourselves from hurt indeed, but it also prevent us finding more beauty. Just as the Croods family, when they step out the cave, they discover many new animals, new tools and new life. In our lives, we change our lives and discover more wonders step by step. We are growing up, not just a fragile baby needs parents' protect, we change our appearance, characteristics and more things. If we compare life to a long and wonderful trip, that all the things bring you wonder you will need to use eyes to discover.

Discover. Yes, all the things need discovery. If we don't have the ability of discovery, we will still live in the caves like the Croods family, we won't have bikes□planes even spaceships, we can't eat yummy foods all over the world…… Maybe when I'm speaking here, you can see how important "discovery" means to us, so, use your eyes and heart to discover all the wonders.

Classical music in the movie

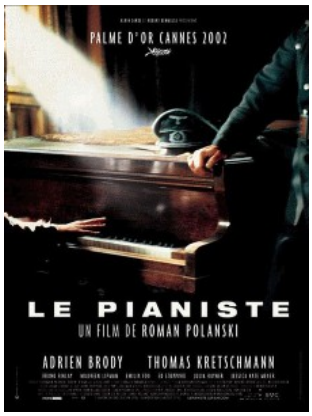

Classical music is art music produced or rooted in the traditions of Western music (both liturgical and secular). It encompasses a broad period from roughly the 11th century to the present day. The most outstanding characteristic of classical music is that the repertoire tends to be written down in musical notation, creating a musical part or score. This score typically determines details of rhythm, pitch, and, where two or more musicians (whether singers or instrumentalists) are involved, how the various parts are coordinated. Referred to classical music in the movie I have to say, Polanski originality in the choice of music is special extremely.

By 130907124 XueMeng Zheng,class 2

*Roman Polanski'*s classic music film "The Pianist," as a great director filmed reflects Poland Polish Jews during World War II suffered brutal persecution of German films, inevitably chooses Chopin's music for the film's leading music.

Polanski selected three nocturnes from Fryderyk Franciszek Chopin numerous works, two ballads, a waltz, a prelude, two mazurkas and the end of the movie. Every single music which the director used in the film they all to the point and also responded to the structure of the film and emotion of the characters.

At the beginning of the movie, the pianist recorded Chopin's "Nocturne in c minor" in the studio. Starting with a sad broad tone seems to presage the doom that lives of millions of Jews is end in. In fact, Polanski used here is entirely facts: September 23, 1939, just as the pianist Spellman recording studio in Warsaw Chopin's while Nazi bombs relentlessly falling down.

The most thrilling fragment of movie is when the pianist's tribulations will get over, in order to open cans of a room, was found by a German officer beside the fireplace .At this

time, the first movement of the “Moonlight Sonata” floated vaguely, this music will play German officer full of compassion, filled with melancholy and frustration, which suggested that he is an appreciator of art and sympathizers and hinted his German executioner cruel nature. With this ground work, he, as a German officer, linger adventure to save a Jewish artist born unlucky, it does not seem abrupt. . . .

At the last moment of life, the pianist chose to play Chopin’s “g minor first Ballade.” This is a morally choice, he wants to use the last moment of life, to express their opposition to the persecutor.

A Travel to Inner Mongolia Autonomous Region

Have you ever been to Inner Mongolia Autonomous Region? And have you ever heard it? And today I would like to show how to travel Inner Mongolia. When to go? What to see?

By:Guanyu Zhou 121101132 Bilingual Broadcasting Class 1

The Inner Mongolia Autonomous Region, which borders with both the Republic of Mongolia and Russia, is the widest province in China .Also it is the third largest Chinese province but not very populated. The province has 24 million inhabitants.

When to go

Climate in Inner Mongolia is various all year round. Winter is

cold and clong, with frequent blizzards. However summer is short and warm. The climate changes from arid to semi-humid from west to east. The annual rainfall is 80 – 450 millimeters, also increasing from west to east. The main feature of the climate here is that the different in temperature between days and nights is very big, so tourists should wear layer of clothes when traveling here.

What to see

Inner Mongolia has a long history and brilliant culture. There are many places of interest. Some of the key historic sites are:

Wudangzhao Monastery in Baotou used to be the residence of the highest ranking lama in Inner Mongolia and now it is the only intact Tibetan Buddhist monastery in Inner Mongolia.

Inner Mongolia is the hometown of Genghis Khan (1162-1227), the great leader of Mongolians. His Mausoleum, located 185 kilometers (about 71 miles) south of Baotou, holds his clothing buried in his memory.

Dazhao Temple is the best-preserved temples in Hohhot. Xilituzhao Palace is the largest surviving Lama temple in

Zhaojun Tomb, six miles to the south of Hohhot, is located on one of the most beautiful scenes of ancient times. A legend says that each year, when it turned cold and grass became yellow, only this tomb remained green and so it got the name Qing Zhong.

Wanbu Huayanjin Pagoda used to be a place where nearly ten thousand volumes of Huayan Scripture were preserved. It is an exquisite and magnificent brick-wood structure about one hundred and fifty feet tall.But what is most attractive about Inner Mongolia is its natural beauty.

Vast grasslands, including the Xilamuren Grassland, Gegentala Grassland and Huitengxile Grassland are all good places for a grassland experience. The mushroom-like yurts, bright sky, fresh air, rolling grass and the flocks and herds moving like

white clouds on the remote grassland, all contribute to make the scenery a very relaxing one.

While visiting Inner Mongolia you may try different activities such as Mongolian wrestling, horse & camel riding, rodeo competitions, archery, visiting traditional families and enjoying the graceful Mongolian singing and dancing. The best time to visit the grassland is definitely during the traditional Mongolian Nadam Festival period when there is a better chance to both participate and feel the lively atmosphere of the grassland life.

You can also visit deserts in Inner Mongolia. The deserts are located in the western part of the province: the most famous and visited ones are the Badain Jaran Desert, Tengger Desert and Kubuqi Desert. Early autumn (from the middle of August to the end of September) is the best time to explore the desert as the temperatures are very temperate.

Ways of Shopping in College

There are plenty of ways of shopping in college. For many different reasons, students choose various ways. Here, this story will introduce all kinds of ways about shopping between college students and why these ways come into being.

By: Jiayu Cui 120905212 Class2

Shopping has become one of the important components of the college students' lives, they all the daily life of the item need to be done by shopping. Thus produced a variety of shopping in the university, according to their own economic ability and the idle time, students can choose the most suitable for their way of shopping. Now I will introduce to the readers many different ways of shopping through this article, and explain the reason of the college students choose this way of shopping.

Outdoor shopping is the most traditional and most direct way of shopping. Most students like this way of shopping, especially on some daily supplies or food, they almost choose to go to the supermarket and stores to buy things. Not only saves time, and the risk small, don't worry about buying the wrong thing. Buying clothes is one thing that needs to select carefully, if you choose to go to shopping mall to buy, you can try it on, you will get the most suitable clothes. But the store things compared to similar goods on the network, the

price is on the high side. So select outdoor shopping way, students must have certain economic ability and free time.

In recent years, online shopping has become the main way of shopping in college. Online shopping is very popular among college students, the students can not only save time, and more important is to buy a lot of things on the net cheaper than entity shops. Almost all students once bought things on the Internet, but not everyone is suitable for this way of shopping. Compared with other shopping ways, online shopping has a big risk. Before buying, can’t see the real goods, can’t check the quality of the goods, less likely to try it on. Only through images and the evaluations of other buyers should determine whether to buy. This undoubtedly increased the risk of consumer. If found the goods is not what you want after received it, you need to return, this may have caused the contradiction between buyers and sellers, have a greater time and economic loss. So, choose online shopping, the college students need through long-term online shopping experience to have the discerning eyes can tell greatness from mediocrity.

In addition to the above two of the most common ways of shopping, in the campus, there is a very new way of shopping, is called the act as purchasing agency. The students themselves to be the purchasing agent sell goods to other students. In general, college students through their own students abroad to buy all kinds of brands about clothing, shoes and cosmetics, etc., then mail back to home, sell to other students in need. This way is not only convenient and quick, the price is cheaper, and quality guaranteed, is much smaller than the risk of online shopping. So act as purchasing agency soon became popular among the students, many students also earn pocket money in this way.

College students have so many ways to shopping, to combine their own economic ability and free time; they will choose the most suitable for their way of shopping. College students is a group of people full of creativity, perhaps in the future,

they can create more original ways of shopping.

Love in The Buff

120211408

□□□

"Love in the buff" the biggest characteristic is that it is not like the movie very much, it's more like a person in the dance of adding to their elder brothers or girlfriends about their recent period of time. In fact, these so-called emotional experience, the narrator is often not himself, engraved on the object and tell most feel dull, nor is it a butterfly lovers, zhu JueLian life and death, there is nothing

can go beyond people’s imagination. “From jiao” is originally a mayday song, this is two men and women of the most common name in Taiwan, of which is the most common way of love, even if is to capture the thought the most interesting one of the most emotional appeal, sounded to others but also is the hair spring temple syndrome. Wit to pang, he should be able to realize this, how to make a film of pure chat not so boring, so he USES swearing and yellow to adjust atmosphere. Was people to the vulgar taste of normal in daily life, but after the big screen magnification, the audience immediately there is a kind of steal the drug, so the film in Hong Kong is classified as a level 3, can say it is a promotion strategy director is very smart, or so extremely small and light, the theme and form of thrown into film market would be “swamped” immediately.

Film is a big background of the Hong Kong government ban smoking in public places, in fact, cigarette itself has a strong symbolic meaning, represents a kind of negative and unrestrained attitude, while the last two people made a seems to make people feel a trace of light and positive decision, but I can’t get rid of the film or pessimistic tone of despair. Plot is a very important, once pointed out in the interview VCR will remarkably girlfriend chi Ming let her hard to bear most of childish behavior, the tzu chi jiao happen again between the Ming and spring, although the wonderland toilet under the tender feelings sweet meaning of the two full of expectations of love, we through the move can be foreseen that two people in the future of life will inevitably encounter the sad ending, the despair of life do not need to explain, it is a normal life, is people’s endurance test, rather than the feelings of metabolism

Drama about tzu chi from advertising companies to Ming (shawn yue) and work in the cosmetics department spring jiao (Miriam yeung) met there, chi Ming’s misfortune as well as the spring of jiao cigarette action let spring tender affection for the gentle man rare. In the next few days and nights, two people from time to time, send text messages and meet the corner

smoking. Feelings transmitted through the thumb, love in the smoke, a vague message eventually lead to spring jiao break up with her boyfriend home hao (Huang Debin). When spring jiao ready to devote relationship with tzu chi Ming, Ming's attitude has become confused. Continue to smoke at the corner after lane hover, but was not able to bridge the gap between two people. With increased tobacco taxes to issue, the smokers have started to search for and stockpiling cigarettes. In the smoking process, tzu chi Ming and spring jiao the convenience store in the first time they met again.

Favorite "from jiao" inside a gaudy sing K, they sing is ZhenNi "the last rose," this one. When tzu chi jiao no advance and retreat of the Ming and spring, also do not have to work around a circle, no enemy don't say I don't speak, enemy said I was denied. And this is after a karaoke scene SMS attack and defense in the sweet music. Careful testing, who also don't speak first, copy is like who love to drop off by, I hate this kind risk.however, I hate such calculating, but fell back to their often is like this, but failing. While I'm still feel the love is one of the most wonderful thing in the hours before the ambiguous time, one is at the beginning of love, but it don't be too ambiguous knowledge

Also like a interview spring Jo is said why I smoke that – at first like a boy, in order to close to him, to learn to smoke, and specifically to find what brand he smoked, often get smoke in front of him as casual, everyone from smoking began to open the topic, the results look he tells her that she prepared to give up smoking, because he met a girl, but the girl don't like smoking boy. Spring jiao has just said "OK, ah, ah good". It can even more than this, because it showed more cruel face of love, no movie's tail show sweet smooth, but full of bitterness of not for a third person to know and shall not, don't put.

Finally oh, completely personal feeling, I think pang is perfect for that kind of love and laughter, black with bright, hate and slag, is CuiShengSheng lai xi xi, but if he called Turkey, I mean, really tough, he seems to have a little

confused, I can’t imagine, for example, from jiao really together, not so handsome, so not port of female, less like elder brothers and point the finger in the distance of the alienation of love. , however, that not a pang proposition, volunteers from the two unreliable youth own sexual love is love, as you can from this relationship on many dust, such as: not at first sight, not handsome and pretty girl ah not goldwind high curative value, not vows of eternal love, but these are all the luxury of love, without the luxury of ajay love, actually it is still not perfect. So, in fact from jiao is perfect men and women relation, because the story stopped until they obtain harmonious trust only a moment…

The taj mahal is located in the northern Indian city of agra, its mysterious and amorous feelings. Also because of its beauty is famous all over the world. But it's just the princess of the taj mahal Hal's grave. Why a grave is can attract so many people to visit? I think, probably because of the beautiful love story about it..

The story of the taj mahal is legendary. JiMan o · ba slave is said to be a pretty woman of Persian ancestry, shah jahan very dote on her. She is very kind, and she is good at all kinds of skills. When she was twenty-one years old, she is married to the prince kurram. After marriage, she and kurram share the joys and sorrows, hand, footprint battleground. In 1628, the kurram after a fierce war succeeded to the throne, he named his shah jahan, meaning the king of the world. JiMan · o ba slave also reached the highest palace title – – taj mahal. Her life is not successful, however, when she was 35 years old, she died in childbirth. Lost his beloved wife, shah jahan was inconsolable, overnight into his hair became gray, he no longer to carry on the war, the next day he returned to his country.

Shah jahan didn’t break his word, he took a lot effort to build the unique tomb in the world. Sunrise rises, the rising of the sun with the morning mist curled up on the river, as if to the taj mahal from sleep wake up, it is quiet at this time. At noon, the taj mahal in the top of the head blue sky white clouds, on water and green trees, and it always dazzling sunshine in South Asia, it is more grown exquisitely carved, sparkling. Wait until in the evening, the taj mahal ushered in it the most enchanting day. Under the setting sun afterglow, white taj mahal began from sallowness, golden yellow, gradually become pink, dark red, pale blue, with the rising of the moon, the final regression into silver. under the moonlight gently brushed, it said goodnight to the tourists, the taj mahal in the peaceful looks very elegant and chic□bright and charming.

Taj mahal, by Indian poet rabindranath tagore has described as “eternal a tear on the cheek. The taj mahal is a building for love, it is all made of white marble palatial cemetery, in one day in the different time and different natural light show different characteristics, its harmonious reflection symmetry, gardens and water together created countless visitors are amazed at the miracle. This is not the cold grave, it means the rebirth of love. This is the pride of India, the miracle of the world.

Taj mahal born for love, and the touching love story also let the taj mahal of brilliance in the later will still be attention. Local people said, despite more than 300 years to the sides of the taj mahal majestically stood two dark red mosque to protect it, even though every day there are always accompanied by hundreds of thousands of tourists from around the world, but the taj mahal is lonely, as beside the rippling river, there is a lonely beauty expects her lover to return.
