Gold diggers

Chenjiao Zhang 120211327

Money is not everything, but without money you can do nothing. This is we all know the proverb. In our life, money occupied a very important position, clothes, food, live, row without money.kind of social phenomenon in a gold diggers. Too much of the money, even to have money to violate the moral and legal

bottom line.

there is a story, it looks ridiculous and really. The gold diggers family conditions, parents are ordinary workers of the factory, live a life of nine to five every day, she was the only child in the family, so parents all pay attation to the gold diggers. Dull and happy life. To worship money the female junior high school of time, something wrong happened at the home, the gold diggers woman's mother had cancer, this is for the ordinary family a bolt from the blue, treat mother's disease, gold diggers left school, working outside, father also constantly to borrowed money and hardworking jobs. But in the end,they failed to retain mother's life. Mother's death for the gold diggers a not acceptable,family loss the warmth, they didn't break away from the death of the mother, home and rags. Gold diggers often staying out, made a juvenile delinquent, gradually learn to smoke, drink bear, lying finally, she don't go home directly, she find a rich manthat the man age is same as her father just because he is rich, then she meet the demand of material a woman material. When her dad know, advised gold digger back several times, but it have no effect, then her father decided cut off the relations in a pet,In this way, a happy family is destroyed. Soon, gold digger went home, because the rich man have lover has a new lover, then the woman don't she, and her father also depression into a disease. Gold diggers are homeless. Gold diggers seemed to understand at this time. In short, it is not an end, the end looked a little dog blood, gold diggers home admitted her mistake, followed by the father and with his father together go to heal, and to ensure that the future must have a good life,care of his father, won't make mistake before. A family again, that ends it. Grandma often tell the story to me, education I don't go wrong, whether this is true, it has been far greater than the value of the problem. Thus begins the gold digger's rebirth.

In fact in the definition of money, the boundaries of each

person is different, but there is a moral bottom line, the correct view of money, slowly experience in life except for money and a lot to what we pay, such as family, parents, friends, lovers, etc. To think about when choose, look before you leap. Met temptation is for sure, but the right, to resist temptation is we should think about.

For gold diggers this kind of social phenomenon, this is a sign of lack of our values, how to solve this problem that we should carefully study the problem.

Yang Shangrong Class 4 130307212

In my spare time,i will go to Hong kong with my mum. It’s very convenient. We will find some restaurant which very cheap,and very delicious. Sure,if you travel to Hong kong with travel agency you won’t find these place.

Let’s have a nice route. Firstly, you will find a lot of cafe. Cafes, is a fast-food restaurant originated in Hong Kong, Hong Kong offers a blend of the characteristics of Western-style restaurants, Hong Kong civilians eating places. Cafes for its diverse cuisine, fast and relaxed dining environment serving speed and the moderate price attracts a lot of diners. And its unique niche, relaxed ambience, but the best choice for modern young people chat gathering.

I always go to cafes name Macao cuiyuan cafes. When you enter the restaurant, you will find the environment is not so quiet,it’s very busy. The style of decoration is very simple. It’s worth to eat “Curry farmer package”, bread with pork. It is very big package, and crispy outside and soft inside. So delicious! Also, If I were you,i will order a cold coffee. It’s very satisfied.

Next. Shrimp wonton noodles——-i think you will like it. You can find these noodle in every cafes. But i recommend you to a restaurant you won’t regret. The restaurant named “Kwai Kee Wanton Noodles”o The wonton is full of shrimp,and the noodle is very special, it’s brittle.

The restaurant ‘s customer usually are the local person. So the price is very cheap. The noodle not only can add the shrimp,you also can add the dace ball, sirloin and so on.

Maybe you want to taste some sweet food. Now i want to lead you to a restaurant named “Australia dairy co.” so strange,isn’t it? But maybe it’s a restaurant i have seen the remark almost all well. You must taste scrambled eggs on toast, milk protein stew.

Why so much cafes in hongkong? When we see the history of cafes,we can see he restaurant is the predecessor of ice tea room. Only a fine dining restaurant in Hong Kong early (formerly known as Western restaurant or dining room) will provide Western-style food, and charges are expensive. After World War II, Western-style eating habits affect Hong Kong people by day and even ice room successive rise accordingly, providing cheap imitation of Western food. Icehouse was mainly coffee, tea, red bean ice drinks, snacks sandwiches with butter toast, etc., some of them with a bread factory, manufacturing fresh pineapple buns, egg tarts, etc. Later, the variety of food provided by increasing ice room, and dining room combined with Western restaurant and patterns evolved into today’s tea restaurant serving traditional Chinese fried

dishes and European food, and later developed to supper dishes, style can be described as diverse. [1] The earliest tea operated under the name of the restaurant opened in 1946 in Central Orchid Pavilion Cafe, opened in 1952, Hong Kong's Lan Fong Yuen is the oldest extant cafe.

Come to enjoy it! You won't regret.

Let's celebrate Nirvana!

Let's celebrate Nirvana!

By:Li Erjiou 121105123 Class4

As its second album□a band tentatively named the new work 'Sheep' in early 1990s. Then□someone suggested Butch Vig as a potential producer□whose work this band particularly liked, and told him "We want to sound as heavy as previous records." As recording sessions for the album were completed, the leader of the band□Cobain grew tired of the title and suggested that the new album be named 'Nevermind'□which Cobain thought was a metaphor for his attitude on life and was grammatically incorrect□as to be catchy□After that, a legendary record came into being□□and this band was none other than Nirvana□

Nirvana was an American rock band that was formed by singer and guitarist Kurt Cobain and bassist Krist Novoselic in Aberdeen, Washington in 1987. Nirvana went through a succession of drummers, the longest-lasting being Dave Grohl, who joined the band in 1990. Despite releasing only three full-length studio albums in their seven-year career, Nirvana

has come to be regarded as one of the most influential and important rock bands of the modern era.

There has been a story widely spread since the beginning. As the story unfolds, Nirvana's last recorded song which had languished undiscovered among unfinished works by the band captures the Seattle trio in a 'grungier' and 'screamier' mood than their previous final singles, according to the song's producer. Producer Adam Kasper, who worked on the recording with the pioneer grunge-rock band, said the song with the working title Know Your Rights is 'a little bit grungier and a little screamier over the chorus' than Heart-Shaped Box, from In Utero, the final studio release from the band considered one of the most influential groups of the past decade. The cut was completed several months before singer Kurt Cobain's April 1994 suicide. It's likely the only finished, unreleased studio track from the band, Kasper said. 'Know Your Rights is a pretty cool tune almost a Heart-Shaped Box kind of approach,' Kasper said Friday. 'It's not Smells Like Teen Spirit or anything,' he added, referring to the Nirvana song that became the anthem for the grunge generation, 'but it's a nice one to hear.' Kasper said that Know Your Rights got that working title because that was the phrase Cobain sang in the chorus. Nirvana drummer Dave Grohl said that the final song Nirvana recorded would be included in an upcoming box set. Though Grohl did not name the song, Kasper said it was likely that he was referring to Know Your Rights. Kasper produced the Foo Fighters' upcoming third album, There Is Nothing Left to Lose.

After nearly 2 decades from the peak to a relative trough these days, suitors of Nirvana now has a chance to recall the good old days. On the 20th anniversary of the song set's airing, it's worth considering the performance as a work of music, not mythology. As music, it's incredible. The band run through a tense and brilliant 14-song set in one scintillating take, something unusual at the time for the popular MTV series, and the result is one of the greatest live albums

ever—an unforgettable document of raw tension and artistic genius.

The advertising line

“Time is what you make of it.” ”Fresh-up with Seven-up” “Good to the last drop”. In recent years, TV screen is filled up with all kinds of advertisements. How do you feel like it? Bothering, pleasure? Lets have look at ” How long the advertising line is?”

By: Yuexin Hu 130307234 Class3

We are all embedded in an environment dense with advertising that most citizens find intrusive or aversive. How old is advertising? It depends upon the definition of advertising and whether the writer on the subject wishes to make the art an ancient one.

The ancient history of the advertising

As is known to us all, there was no media exist in the past. The first outdoor advertising is the pedestrian attention widely to form. once upon a time, 50 centuries ago in Egypt,

businessmen accustomed to burn on a slate selling information to attract pedestrian interests. At the time, there's even a poster to the first wooden-paper made of. While there are other ancients thriving culture born of outdoor advertising poster paper appeared inevitable. These ancient states made up rudiment of advertising. Afterwards, set in the industrial revolution, television was created in due course, offering carrier for TV advertising. Regardless of where point of view, there's no wonder that the new invention was new and modern, opening the way to advertising.

The biggest threat —— mobile

Instead of going to the bathroom or grabbing a beer during commercial breaks, TV watchers are increasingly turning to a new ritual: checking their phones until the show resumes. For advertisers paying top dollar for TV ads, the trend is frustrating, presenting yet another challenge in their quest to gain a share of consumers' fragmented attention. But Xaxis, the WPP-owned programmatic platform, believes it's found a way to reach these distracted consumers. The company is introducing a product called "Sync," which will give advertisers the ability to serve ads on TV watchers' mobile devices while their TV screens air the corresponding commercials. According to the survey Top 5 Chinese online Ads in 2013, we could see that advertising is consistent to be our No.1 or to be the only one in some ways.

Gone with the wind ?

A big problem swam in our minds for many years. There are many ways to popularize products gradually peter out, will advertising still alive in our future society? Maybe no one can give a certain answer. But as far as I'm concerned, advertising's success lies in its creativity and content varies with time. So however fast the development in the world, advertising can always keep up with it. A saying going in China: there were no road signs when earth began, they were

made by people treading on the ground. I believe that is true in advertising. It is the reason for the existence of the marketing, were there no advertising, there were no advertising on the earth. Will the advertising gone with the wind ? The answer is more and more sure.

We are firmly convinced that advertising will give us more surprise, redefine the relentless pursuit of perfection.

Saving money is not meant for buying cheap goods.

What is money?someone says it is nothing while others say it is the most important thing in their life and without it they can't live any longer. It said:money is not everything ,but without it you can't do any thing. In my opinion, it is right . but we should also hold a right attitude to it.

What is money?someone says it is nothing while others say it is the most important thing in their life and without it they can’t live any longer. It said:money is not everything ,but without it you can’t do any thing. In my opinion, it is right . but we should also hold a right attitude to it. You must heard that story that a rich man want to find happyness, at last he found it in a poor man’s life. Sometimes we think that the rich persons are the happiest ones in the world. However, it is not. The more money they have ,the more morose they feel. In fact, without money,we can have an interesting and exciting life aslo. So having lots money or less money is not the important thing , the important thing is weather we are happy

or not,is it that make our life full of wonderful thing.
Today, most people can solve the problem of eating and clothing, but there’s a big difference in the shopping, some people like to buy a lot of things, but is a bargain. Some people like to buy expensive things, is often inconsistent with his income. In fact this two kinds of consumer psychology is wrong, we should sell good quality goods, not blindly pursue high price. We should not ask the number to buy things, to the quality requirements, quality good time before long.

Rainbow Flags Fly over Everywhere for Gay Pride

With the legalization to allow same-sex marriage in Scotland was passed by the Scottish Parliament in February 2014, until now there are 17 countries have legalized same-sex marriage during the last 14 years (from 2001 in the Netherlands to 2014 in Scotland) and most of them are western countries.Doubtless this is a huge success of the fight for gay pride for LGBT community.

By 120101221 Muyu Li Class 1

June is coming, and June is the wary month for Gay Pride

Parade all over the world. As an annual spectacle at a global scale for the LGBT (Lesbian, Gay, Bisexual, and Transgender) community to celebrate their culture and pride, Pride Parade also serves as demonstrations for legal rights such as same-sex marriage. On the Parade, Everyone who is LGBT can voice their opinions and express their belief by bright colored floats, banners, dramatic dressing and makeups, body paintings, singing, dancing and everything you can and dare to do. And of course the most important and typical LGBT sign- the rainbow flags, will fly over the sky and lit up a colorful world.

Although the development of gay marriage legalized and recognized is fast-paced in the latest several years (some people even assert that 2013 is the' year of the gay'). The shift from crimes to freedom, from sin to rights of being gay is difficult and fraught with hardship. Almost 50 years before, the homosexual acts were still criminalized in the UK, in the US, in China and almost everywhere around the world, as a undue charge of 'sodomy'.

- **1895**, the court of England declared the accusation of Oscar Wilde on the ground of "posing as a Sodomite".
- Alan Turing, the father of computer science, was prosecuted for homosexuality in the year 1952.
- Happened In the early morning hours of **June 28, 1969**, The Stonewall riots, a series of spontaneous, violent demonstrations by members of the gay community against a police raid.And the Stonewall riots is widely considered as a pivotal moment leading to the gay liberation movement and the modern fight for gay and lesbian rights

- In **2001**, same-sex marriage has been legal in the Netherlands and The Netherlands was the first country in the world to legalize same-sex marriage.
- In **2011**, the implementation of repealing ‘Don’t ask, don’t tell’ in the military conducted in the USA.
- Legislation to allow same-sex marriage in England and Wales was passed by the Parliament of the United Kingdom in **July, 2013** and came into force on 13 March 2014.
- Until **May 20, 2014**, there are 19 states of the USA legally recognize same-sex marriage.

This is history, this is history that created by those who pride to be gay and fight for the pride to be gay. If someone asks about why pride about it? The answer is simple for everyone: When people are out to get you, it takes strength to be brave enough to let the world know who you are. When legislators are making speeches about how you are evil for loving the wrong person, it takes boldness to stand up and get up in their face. When you are persecuted for the way you are born, it takes a certain amount of courage to stand in the face of that, and tell them to back off. You need to be proud of your community and strong in character.

So In reality, “gay pride” is actually “celebration of the ability to be safely, openly, happily gay”
