one of 9 branch canyons—Hongdou Canyon are the most classical canyons that I ever visited. The water here is very clean, flowing all year round without stopping. And in Hongdou canyon, there are tens of thousands of Yew and they are so beautiful. The sceneries impressed me deeply when I was a child. And every time I go there, I would certainly shocked again and again by her beauty and mystery. However what shocked me is also that my classmates who lived there. When I was in high school, some of my classmates did come from the Taihang Great Canyon. They were boarding at the school, but every Friday, school was closed early in order to enable the students could catch the last bus which destined for The Taihang Great Canyon—their home. At the meanwhile, the drivers always increase their bus for the students.

Honestly, all of these make people in the city have a lot of feelings.

A Travel to Inner Mongolia Autonomous Region

Have you ever been to Inner Mongolia Autonomous Region? And have you ever heard it? And today I would like to show how to travel Inner Mongolia. When to go? What to see?

By:Guanyu Zhou 121101132 Bilingual Broadcasting Class 1

The Inner Mongolia Autonomous Region, which borders with both the Republic of Mongolia and Russia, is the widest province in China .Also it is the third largest Chinese province but not very populated. The province has 24 million inhabitants.

When to go

Climate in Inner Mongolia is various all year round. Winter is cold and long, with frequent blizzards. However summer is short and warm. The climate changes from arid to semi-humid from west to east. The annual rainfall is 80 – 450 millimeters, also increasing from west to east. The main feature of the climate here is that the difference in temperature between days and nights is very big, so tourists should wear layers of clothes when traveling here.

What to see

Inner Mongolia has a long history and brilliant culture. There are many places of interest. Some of the key historic sites are:

Wudangzhao Monastery in Baotou used to be the residence of the highest ranking lama in Inner Mongolia and now it is the only intact Tibetan Buddhist monastery in Inner Mongolia.

Inner Mongolia is the hometown of Genghis Khan (1162-1227), the great leader of Mongolians. His Mausoleum, located 185 kilometers (about 71 miles) south of Baotou, holds his clothing buried in his memory.

Dazhao Temple is the best-preserved temple in Hohhot. Xilituzhao Palace is the largest surviving Lama temple in

Zhaojun Tomb, six miles to the south of Hohhot, is located on one of the most beautiful scenes of ancient times. A legend says that each year, when it turned cold and grass became yellow, only this tomb remained green and so it got the name Qing Zhong.

Wanbu Huayanjin Pagoda used to be a place where nearly ten thousand volumes of Huayan Scripture were preserved. It is an exquisite and magnificent brick-wood structure about one hundred and fifty feet tall. But what is most attractive about Inner Mongolia is its natural beauty.

Vast grasslands, including the Xilamuren Grassland, Gegental Grassland and Huitengxile Grassland are all good places for a grassland experience. The mushroom-like yurts, bright sky, fresh air, rolling grass and the flocks and herds moving like

white clouds on the remote grassland, all contribute to make the scenery a very relaxing one.

tooopen.com 第九部落 daidai26

While visiting Inner Mongolia you may try different activities such as Mongolian wrestling, horse & camel riding, rodeo competitions, archery, visiting traditional families and enjoying the graceful Mongolian singing and dancing. The best time to visit the grassland is definitely during the traditional Mongolian Nadam Festival period when there is a better chance to both participate and feel the lively atmosphere of the grassland life.

You can also visit deserts in Inner Mongolia. The deserts are located in the western part of the province: the most famous and visited ones are the Badain Jaran Desert, Tengger Desert and Kubuqi Desert. Early autumn (from the middle of August to the end of September) is the best time to explore the desert as the temperatures are very temperate.

Sacred and classical city

Would you want to enjoy living on high elevation? Lhasa may be a good choice. Blue sky and clean air will make you comfortable. So let's go to see it with me.

By: Miao Hong 130306109 Class 1

A lot of people want to feel the sacred and classical city. You know, [Lhasa](#) has a long ancient history. Standing on the roof of the world, you can feel from the shock of the soul. What's more, the pious religious atmosphere can wash world people's heart. In particular, The Potala Palace is the most representative of Lhasa building. If this is the first time you come to Lhasa, you must not miss this place.

The Potala Palace was built in the year seventh Century king Song Xan Gan Bbu period since 1300 has been the history of. How ancient The Potala Palace is! In the early seventh Century, Song Xan Gan Bbu moved to Lhasa, married Princess Wencheng of the Tang Dynasty, especially in the construction of the palace on a total of one thousand three nine storey building, named Potala Palace. In the other word, Potala Palace is he gave Princess Wencheng "romantic houseful". There is a silver copper alloy system connected by a bridge between Song Xan Gan Bbu and Princess Wencheng Palace. So, we can see that the two of them have loved each other so much.

When it comes to Potala Palace, I must mention that the White House. The White House, is the Darai Lama Winter Palace. The White House for exterior wall is white and the name, the existing Potala Palace's most ancient building is the Dharma cave. Inside the cave, for Song Xan Gan Bbu had reportedly made him and the Princess Wencheng, Nepal foot statue of Princess and others tied statue. At the top is Darai Palace "Sun Temple", a part of the hall roof open, the sun can be

launched into the night, with tarpaulin covered, so it is named "Sun Temple".

On the other hand, every year there are many festivals held a grand ceremony. Now I will tell you about WangGuoJie festival. "Hope fruit" Festival is an annual Tibetan people wish the agricultural harvest festival. In the Potala Palace and eight streets in Lhasa as the center of town, the local people dressed in festive costumes, and some under the banner of flags, some carrying highland barley, grain plunge into the bumper harvest tower, tower is a white "hada", holding banners, some beat gongs and sound drums, singing songs and opera, some carrying a portrait of Chairman Mao, around the head turn, round, people carrying tents, highland barley wine, and talk over the past and present, while carousing, some still hold the traditional horse racing, archery, horse riding, yak racing up and dance. Young men and women love in the evening dance around the campfire, singing in antiphonal style flirting, until late at night. At this moment, you can feel the hospitality of local people.

I'm sure you won't feel disappointed for Lhasa.

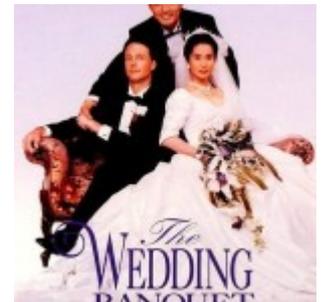

Lee: Attitude toward marriage to be loyal, but making a film, how fun is how to take

it.

I believe that most people think ang lee is a rational, calm, traditional filmmakers, but today I want to analyze “crouching tiger, hidden dragon”, “brokeback mountain”, as well as “lust, caution” to work out some secrets about lee. like what is the meaning of the hulk and tiger? What kind of story can attract the ang lee? and Why is “lust, caution” so controversial?

110110115 GongDan

The first time I know ang lee is because of a movie “wedding banquet”, which is a popular play about traditional ethics, entirely in Hollywood Chinese movie. If i remember clearly, it was a summer vacation ,my brother and i watched this film together. My brother is Lee’s fans .He said Lee is crazy about adventuring, take “wedding banquet” as an example, the story is in Chinese sensitive topic – gay and lesbian issues, but he hold was in place, he used the Chinese unique ethical point of view to deal with this problem, made the tragedy turned into comedy, and won the audience’s consistent high praise

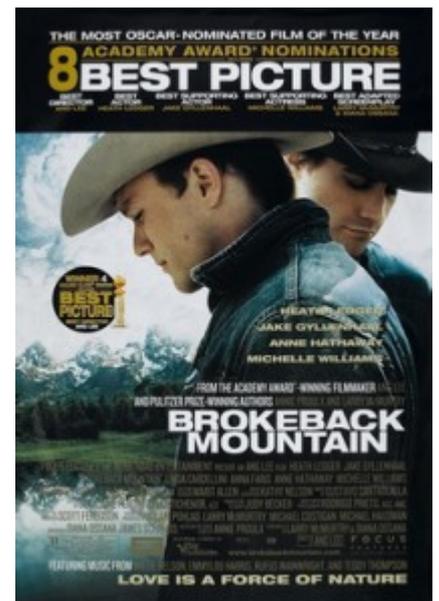

After entering university, in the classroom of “analysis of the film” ,he teacher told us that “crouching tiger, hidden dragon” is his writing career of watershed, and there are big differences in his early movie. In early movie ,he give priority to family and the father-son relationship. And start from the “crouching tiger, hidden dragon”, lee unconsciously

into the subconscious level. In his middle age, the love, desire, all take turns from “crouching tiger, hidden dragon”, “brokeback mountain”, and rushed out of “lust, caution”. Here, I would like to briefly introduce three films. “Crouching tiger, hidden dragon”

is the Chinese martial arts kung fu, but there is no general martial arts films that thrive of heroism, instead of looking for runescape humanities connotation of a kind of deep thinking and reserved; “Brokeback mountain” is about the complicated relationship between two men love and sex; “Lust, caution” is more than the 40 s of Shanghai during the Anti-Japanese War as the background, tells the female college students turns (tang wei) using beauty close to Mr Yi (Tony leung) intention to assassinate the traitors. When lee leap into this new field, he abandoned the previous dull, in the movie, he seemed to tear off the mask, face the real self, explore the human nature.

Once, ang lee has a reporter to interview, ask he made what is the feeling of “crouching tiger, hidden dragon”, lee said: “this is my first time to blatant for love movie.” Later, when the “brokeback mountain”, body language has become the focus. In the film the great mountains of rock wool to sudden sky, clouds and wind, and darkness of the earth, even the flow conditions of the river, stream, lake, reflects the character’s psychological mood from time to time, make the audience daydream. Especially in “brokeback mountain,” the two reunited, fled to the mountains for the first time, whether two people stripped tie, jumped into the

lake, or chat late at night, behind surging pentium river, is a metaphor of the inner states as well as the relationship between each other's characters. In a word, this a series of details are said ang lee is constantly changing, from the beginning of conservative director, to now is good at using body to render the emotional liberation, but everything is so reasonable. This is reflected in the "lust, caution" was just right.

In "lust, caution", Ang lee directly omit metaphor, indirect expression, to directly enter the body entanglements to echo the characters' inner struggle and external situation changes, this is really too shocked, too attractive. But it was banned by the Chinese, and the reason is not civilization. In fact, in my

opinion, even if lee does not make the film "lust, caution", he also can choose other subjects to express their inner change. It is interesting to note that ang lee fighting the sex scenes in the movie always entangled, even some traces of abuse. Like Luo Xiaohu in "crouching tiger, hidden dragon," Li Mubai with jade jiaolong, in "broke back mountain," jack and ennis, If you only see pictures of ang lee, you absolutely can't imagine his heart will have a really love, love deeper, but unfortunately the world of love. But I think this is what I am willing to take the time to understand the secrets of his work.

What the deepest impression on me is a sentence said by Lee, "if a story is insufficient scary, sensitive, I'm afraid it can not attract me." I Can't fully understand until last year when I begun to try to write a movie script, I totally understood if a story is black and white, the writers are not attracted, so how to attract the photographer, the actor and the

audience? As far as i known,there are a lot of romantic stories appeared in the films of ang lee, but in real life, he had a very happy family.For the reason that something can not be achieved in real life, moved to the big screen display. So, i what the safest thing is risk in the movie.

**The Mysterious, Still,
Unbelievable**

Do you know who is the first emperor of China? Yeah, it's Qinshihuang . He is a legendary people. Everyone knows he ever crossed the six countries and unification of China. What a great hero! The all-powerful Kuangshi monarch, not only left a great cause for future generations, there is a mysterious Royal cemetery. But where is his tomb? Now these peradventures are waiting for you to "find".

By : Miao Hong 130306109 Class 1

There is a mountain is called [Mount Li](#) in Chain Xi'an. Mount Li has a very long history .For example, the history of "feudal war drama, a smile lost world" story took place here. But now I want to say is The Mount Li Mausoleum. Many TV shows derive from Mount Li, such as Myth, Qin moon and A terra cotta warrior. Why? Because Mount Li is a secret. According to legend, Qinsh ihuang was the Mount Li in the encounter with the goddess, travel, to play the goddess, the goddess fury in his face, spit, Qinshihuang soon had a bad sore. Although this is a fairy tale, but indistinct can see Qin Shi huang and Mount Li seems to some fate. His grave is in the Mount Li.

Though we have found Qin Terra-Cotta Warriors and Horses Figurines, no one can enter the tomb so far. The cemetery after Qin capital of Xianyang layout construction. The mausoleum of Emperor Qin Shi Huang's Chinese first Royal Cemetery, in China hundreds of imperial tombs, with its grand scale, fossil rich known to the world. What a huge project! It's said that his tomb is surrounded with mercury to avoid grave robbers. Main organs inside the tomb filled with arrows crossbow, the tomb of the people will be shot dead near. I must admit Qin is a circumspect people.

Mausoleum of the First Qin Emperor, it is the South Mount Li layer love overlapping peaks, verdant mountains; north of the curved, may lie beside the Wei River. The big mound in the lofty ridges and peaks surrounded with Mount Li all blend into one harmonious whole, beautiful scenery, the environment. The grand scale, the momentum of the majestic.

The total area of 56.25 square kilometers. Ling on closing high of about 115 meters, is still as high as 76 meters, the cemetery has the twofold city wall, the inner city perimeter 3840 meters, the perimeter 6210 meters. There are about 8 – 10 meters outside the city walls wall, today is the residual site. When you see the tomb recovery plan. I bat you must be shocked by it. Everyone will wonder the ancients, creativity. Obviously, the Mausoleum of the First Qin Emperor Palace of the Earth scale is China past any imperial tomb cannot be compared, by its size and the construction process is far beyond our imagination, is secret and magical heavy fog wrapped still buried deep in the dark underground, and so on that day alone, looking forward to The case is entirely cleared. in the world.

The Sun Island is Full of Sunshine

There is a scene is probably a lot of people fantasize about: in a sunny island, the sea and the sky is the same color, the seagulls and the waves play together, and you are lying in the sun, enjoying the wonderful time. Does this sunny island really exist? Let me tell you, the sun island is in the northern of Songhua River, in Haerbing, Leilongjiang province.

By : Wankun Liu 130306118 Class 1

If I said that this world really has the sunny island, do you believe it? Of course, I said the island does not mean that the island is always sunny, but refers to the island's name is called "Sun Island". Why the name of the island is so special? There is a legend. The "Sun Island" was from the Manchu bream. Manchu has three kinds of patterns about the bream: the common bream called "sea flower", the black bream called "falu", the circular bream called "taiyian", and it is very similar to the "sun". So the "sun" of the Sun Island means bream fish. Anther argument is that the slope is full of clean sand, in the light

of the sun, the sand was hot, so the island called Sun Island. No matter what kind of view, Sun Island is like its name to let people feel the warmth of the sun.

At the beginning of twentieth Century, as the Middle East railway construction, many foreign nationals have come to Harbin. They found that the undulating terrain and the rivers as a network of Sun Island is a good place for the summer. So they began building villas. The expatriates brought their families, they have a picnic, hiking, wild bath at here. These exotic customs

of life become a special cultural phenomenon in Sun Island. These customs even still in effect today Harbin people's ordinary life. Now, Sun Island is not only still retain these cultures, it began to build the ecological island. People used the natural terrain, water and road links with the space, made the landscape is not only a complete system, but also relative independence.

[The Sun Island](#) scenic spots are full of sunshine, too. The sun stone is a very eye-catching landscape. You can see it at a glance. In 1979, a song "Sun Island" made the Sun Island was famous at home and abroad. So the tourists increased. When the visitors land, always ask "where is the Sun Island?" So the Sun Island scenic area construction headquarters decided to erect a monument to show visitors. And the stone is engraved with "Sun Island". Now, the sunstone has been called the Sun Island sign.

Snow only spears in winter, but in the ice& snow art museum of the Sun Island, you can see the ice and snow any time. The art museum is divided into five scenic spots. Each area has its own unique characteristics. It

It makes people find the snow is different, snow not only means cold. It lets people feel the ice temperature in the Sun Island.

If you can set foot on the warm land, please do not mean your eyes, enjoy the beautiful scenery of the Sun Island, please do not save your embrace, hug the warm from the Sun Island!

Wuyi mountain

Fujian is located in southeastern of China, it has rich tourism resources. Now I want to introduce my favorite place of Fujian and give some suggestions to the people who want to go to the place.

By : Shiting Wang 130112218 Class 1

Wuyi mountain located in northwest of Wuyishan city, Fujian Province□China. Its total area of 999.75 square kilometers□is China's famous tourist area and summer resort. Depending on the characteristics of the region's resources will be divided into the western region's biodiversity□Central Jiuquxi ecology□natural and cultural landscape as well as the eastern city of King City in Fujian and the ruins of the village of four protected areas.

Nature gave a unique and superior natural environment to Wuyi mountain. Many Scholars left their literary work about Wuyi mountain and created many cultural heritage. For example□it have 35 former residence of Zhuxi, Youzuo, Xionghe and

Caiyuanding. There are many appealing viewpoint but I want to introduce the most interesting place in Wuyi mountain—it is Jiuquxi. Jiuquxi originated in the dense forests of the Wuyishan National Nature Reserve—a total length of

62.8km. The perfect combination of mountain and water is the most prominent feature in Jiuquxi. You can use the raft down the river to watch the scenery. You best choice for 6-7-8 months to Wuyishan because less people in this time. Jiuquxi have DawangFeng, Xiandiaotai, TianyouFeng act. You can use the raft down the river to watch the scenery.

The transportation is convenient and you don't worry there have no bus to the airport. Of course—there have all kinds of hotels and they are cheap—but in the holidays the price may be rised. Wuyishan have abundant species. Snakes, rabbits, goats and other animals can be used to cook. Jilongjinsishun, Lanhuashesi, Juhuacaoyu are the specialty of the house in Wuyi mountain. In short—Wuyi mountain is a worthy place that you spend money and time to taste.
