Water sprite? Water sprite!

As a tourist attraction, the Changbai Tianchi never lack of tourists, but because the legends about the water sprite, Tianchi is always covered with a layer of mystery.

By : Wankun Liu 130306118 Class 1

In 2002, in the slope, north of Changbai Mountian, two local people found “monsters”. In 2005, water sprite appeared again. The witnesses said it was like a whale or a submarine. In 2006, the “Monster” swam in the North Korean side of the water. It was channeling up and down, just like a water seal. From the telescope, it looked black and not very big. Somebody said it like a dinosaur, somebody considered it as a big iron,

others thought it was a Buffalo. It disappeared in the water for ten minutes. At that time, more than one hundred visitors saw it. In 2013, hundreds of visitors saw two monsters playing and swimming in the Tianchi's lake.

Somebody thought the so-called monster is only an illusion, others thought that this is a way to attract the local tourists. Is water sprite really in Tianchi's lake? Let's take a closer take about Changbai Tianchi.

Famous Tianchi is located in the Changbai mountain peak volcanic vertebral at the top of the body and it is China's largest crater lake. Tianchi is surrounded by many peculiar-looking peaks. Every year, there will be a spectacle that the fire could run out of the water. It's amazing! For the material in the lake is in contact with water, and it will produce flames. Not all tourists can see the spectacular sight of Tianchi, Tianchi's climate varies from minute to minute. Sometimes within one day, or even an hour, weather may change several times. Just or sun point-blank, anxious to bake, suddenly the wind come up and the rain fall down. Mountain and lake drowned in the wind and rain.

Because there have been sightings of the water sprite, the scientists set up "Tianchi monster observation station" near the lake. Researchers carried out a long-term observation, and shoot from the valuable data, confirmed that unknown creatures in the water. But what is the specific biological, they don't

know. They got the Tianchi water for many times tests proved Tianchi water without any creature. Since there is no biological, if there is a monster, what it eat? This series of questions that make the Tianchi more mysterious and beautiful, attract more and more people to watch.

Of course, there is a beautiful legend about Tianchi. It is said that a fire breathing devil in Changbai Mountain, the whole mountain vegetation withered, all flames blot out the sun, people’s life were very hard. A girl named azalea, in order to overcome the devil, holding ice drill into its belly, to extinguish the fire. The fire was put out, then the peak into lake.
Is there a monster in the Tianchi Up to now it is a mystery. But still many things for us to admire like white clouds, blue sky, clear water and the magic of nature.

Shanxi_Pasta

I & Pasta

I am a native of Shanxi loving Pasta so much especially for noodles. For me, for my family, for my neighbors, even for the whole people of city, noodles are considered as the best food that can make us feel happy. When eating noodles, we have a variety of fried vegetables. Before eating, we will mix them (fried vegetables and noodles) up, add a spoonful of vinegar and finally decorate with sill or coriander. The color and the great smell of noodles can quite stimulate your appetite. They love noodles, very anxious to eat noodles have three square meals a day.

In my life, my family is good at different kinds of noodles. My grandmother is good at LaMian (Ramen/ Hand-pulled noodles), she is pretty skillful because making LaMian needs pretty good skills. In a word, Rome wasn’t built in a day. So we can imagine how hard to make it. My mother can make sliced

noodles, it’s perfect! Every time I eat it, I was moved almost to tears. I just feel full of happiness. And as for my boyfriend, the udon noodles he made are the most delicious udon noodles that I’ve ever tasted.

When I was a child, I remembered that my mother taught me how to make steamed bread, all I need to do just roll the dough into a ball, and then waited for 20 minutes to steam them. But what enjoyed me most was learning to make flour sculpture. When I make the dough, I can make it as all kinds of shapes, rabbits, mice, hedgehogs, turtles… as long as I could imagine. Until now when I recalled those days, I just can’t stop laughing. The process is so interesting and I did learn the skills to make this delicious pasta.

Sliced Noodles (Cut Noodles) ——The Soul of Pasta

Because of its unique flavor, sliced noodles of Shanxi are known at home and abroad. Noodles are all cut by knife, so people name them Sliced Noodles or Cut Noodles. Sliced noodles particular stress the speed and shape. Chef stands before the pot to cut noodles, one hand holding the noodles, the other hand holding the knife to cut from the top down. Good cook can cut about two hundred times per minute. The length of each side leaves are exactly six inches. The noodles ear thick in the middle and thin in edge, and they are as slim as willow leaves. Soft and not sticky, the more chewing the more

fragrant are the features of Sliced Noodles.

How to make *a* bowl of Sliced Noodles by your own*?*

Main ingredients:

flour, water(the best proportion is 10:4.5)

Process:

1. Put the flour and water together to make dough.
2. Use adequate amount of dough and change them into cylindrical shape.
3. Use a knife to cut the cylindrical dough. After boiling for 3 minutes, you can enjoy the Sliced Noodles.

Beautiful flowers should match beauties. Yangzhou is known as “the region south of the Yangtze River in north”, it stands to reason that women here are beautiful enough to feast the eyes. There are four great beauties in ancient Yangzhou.Feiyan Zhao, the most outstanding dancer, Xijun Liu,the pricess who was both married her grandpa and grandson, Waner Shangguan, the only female Chancelleress of China, and Xiuying Tian, the fragrant imperial concubine of the Ming Dynasty. Stepping out into Zhuyu Bay Scenic Area, a cute squirrel will come to great guests so that they can eat their favorite pine cones and then jump up and down in the pine trees. I smell a floral perfume sweeping on the river, so I sit down in the bridgehead, listening to songs and admiring lotus. Suddenly, a girl rowing and picking lotus appears, with a bamboo pole, she wears a bamboo hat and shuttles on the river slowly. It looks like a natural painting. On one hand, it can be cooked in the Eight-Treasure Porridge, this is a tradional food in China, but a little bit different from Yangzhou. On the other hand,using some of them to make tea is a good recipe for cancer prevention even though it tastes bitter. The sun goes down and it's time for me to say goodbye to the lovely city.

Jingzhou City

Jingzhou,also called Jiangling in old times,is located in middle-southern part of Hubei province,near the Yangtze River bank.

By:Shiting Wang 130112218 Class 1

As a place famous for its sceneryor historical relics,it has been awarded One of Most Historical Cultural 24Citiesin China,Chinese Remarkable Scenic,National Garden City and so on.There is a long history as well as splendid culture in Jingzhou.The capital of the old country Chu was built here in 689B.C. and lasted for 411 years,whichcreated Chu’s

civilization which may be as excellent as Greek and Athens’.

Jingzhou is famous of its wall.The wall of Jingzhou City is in an old age even as old as Great Wall——it was bulit near the Spring and Autumn Period.Now which wall we can see was rebuilt in Ming and Qing Dynasty.Owe to the protection of the town government,these walls around the old city has been enjoyed by more and more people.The government planted cheery trees along the wall and cleaned the city moat.Therefore,the avenue along the wall and the moat has been the most popular place in the locality.Nevertheless,when it comes to key point of interest in Jingzhou,we can’t miss the Jingzhou Museum and Zhanghua Temple.Jingzhou Museum——which is also national four-star scenic possesses various kinds of silk cloths and porcelains of many dynasties and corpse of the Western Han Dynasy as well.Besides,there are some massifs and lakes which make tourists relax.Then the Zhanghua Temple,which seems to be ordinary,is called Hubei “jungle” and is protected by Hubei goverment.Also,there are many people(especially Guangdong and Hongkong businessmen coming here from all over our country.The most interesting thing is that the ancestral temple of Guan Yu, a famous general in the period of the Three Kingdoms,is famous out of Hubei but not so popular by local residents.

Jingzhou is also famous of its rich natural resources,espescially rice and fish.Meanwhile,there are many special local products such as fish cake,special sausage, and so on.My favorite are pickled paws and neck of duck and “mitofu”a special kind of tofu which is made by rice.The “mi tofu” is alike normal tofu such as white and square but softer. The most important point is that the taste is completely different from normal one.And as the area in the middle of China and alongside Yangtze River,Jingzhou “collects” orthodox cate from north to south such as big pastry and nooldles as well as fish soup and cakes——all of them are original taste.How wonderful,isn’t it?

Above all,one who fails to reach the Jingzhou City is not a hero.
