By: Rulan Sheng 130306139 Class 1

*"I stand in the Prague Square at gloam
Throwing down a hope beside the making a wish pond
That white pigeons back on to the setting sun
That tableau is so beautiful that I dare not to see"
Have you ever heard the song<Prague Square> When I first heard
the name of Prague, it's from this well-known popular song. At
that time, "the Little I" became to be interested in the
beautiful country—Prague which seems to have something special
to happen or full of artist breathe.*

Legend has it that libue said a prophecy about Prague "A great city, its glory can reach the stars in the sky! I saw it on the VOR in the forest Tawa Riversteep cliffs. There is a man digging out a threshold(prah) for the house to build a castle called Praha . The princes and dukes should bow before the threshold, they are going to bow for the castle and wrapping city. It will be respected, get everyone's honor and the whole world will praise it"

History and prophecy meets! In 9th Century, the right bank of the Vltava River and the commanding high castle consists of the first Prague. From that moment, Prague is destined to be extraordinary prosperity, doomed like twinkling stars

Once upon a time, Prague is the capital of Bohemia, and became the Holy Rome Empire capital in Charlie IV, after became the financial centre of central Europe .Then, Prague

has become the most famous tourism city in eastern Europe. Follow the footsteps of music, walking into the church of Prague, looking for the colourful glass in lyrics .You will be surprised that the spired glass decorated the tall and dark church appearing so much lively.

A history of the city always with water .Verona Arno River Adige, Florence Prague Vltava River. A river , is not only breeding the people on both sides of the branch , but also containing the abundant history of life.

At that time, the old bridge over the Florence Arno River left a deep impression on me. The most narrow spot of Arno river gathered the most people. And the Charlie bridge over the Prague Vltava River made people feel a lot which is the oldest stone bridge in Europe .The 30 Saint statues on the bridge wait quietly and watch the time flow.

When Michelangelo praised the Florence cathedral dome: "I can build a larger dome, but can not be more than the beauty of it." So the dome became the world's the one and only. Prague also has the only astronomical clock.

In the Legend, in order not to let second magnificent astronomical clock born in the world, the authorities ordered to stab the craftsmen in the eyes, then the Prague astronomical clock becomes the only. The clock dial is drawn on the representation of the earth and sky background, and there are four main mobile disk, which are the twelve signs of the zodiac disc, old Czech schedule, the sun and the moon. Are they also depicts the world changes and the slip of time?

Perhaps, we have all forgotten, Prague, there is also a worth remember characters –Kafka

I am living in Spain, Bullfighting is the most traditional of Spanish Fiestas. The Spanish people consider this art forms which are intimately linked with their country's history, art and culture. Pressure groups attempt to lobby against bullfighting yet the King of Spain himself has allegedly stated that the day the EU bans bullfighting is the day Spain leaves the EU.

[Bullfighting](#) can be traced back to ancient days. This art popular spectacles in ancient Rome, but it was in the Iberian Peninsula that these contests were fully developed by the Moors from North Africa who overran Andalucia in AD 711. Bullfighting developed into a ritualistic occasion observed in connection with feast days, on which the conquering Moors, mounted on highly trained horses, confronted and killed the bulls.

Romero's grandson, Pedro Romero, developed all the passes and moves which to this day are seen at a bullfight. He retired in his eighties after killing more than 5,600 bulls without ever being hurt. Thus Ronda is considered the home of bullfighting.

Bullfighting season in the Spain is March to October. In bullfighting season, there are two games will be held every Thursday and Sunday. If it is in the festival and National Day, people can watch it every day.

You can visit the bullring in Ronda which houses a small bullfighting museum. The bullfighting season in Ronda is from April to October though fights are quite infrequent. Check with the tourist office next to the bullring.

Spanish people are enthusiastic and full of passion, they all love bullfight very much. Bullfighting is a unique scene of Spain and it is famous in the world. Although people are dispute this activity from the point of view of animal protection, but as the traditional festival in the Spain, it also welcomed by many people.

Cattle show in Spain also gradually lost past scenery, appearing twilight scene. In July 2001, Spain announced a ban on sales of dead male beef in the market. But selling bull beef is the main income of the cattle-breeders, the ban means that they will be unable to afford the high cost of domesticated and give up raising bulls. Even the world famous Spanish bullfight there will be no bull fights. Bullfighting is the traditional program of Spain, and other countries seem to haven't carry out this project.

People always feel like that Spanish bullfight very cruel, but today there is a another view about the bull: with respect to pulled the us to the slaughterhouse directly, let us struggled with the Matado may be more humane. Because in this process, as a bull, we can also like a man with honor and soul. Since we destined to be eaten by human beings, why not let us have the opportunity to take revenge?"

He adds the different element arty pattern boldly, and he brings the street arts into the middle class . He makes the "Made in Italy"has a new label of noble and elegant.

Milan fashion industrial helps the development of other

aspects in Venice, so we it is important for a country to develop fashion. In the Milan fashion week of 2006, there had an opening ceremony of “China Day” brand issued jointly. It is the first collective appearance of China, it helps promote the brand culture and changes less number of well-known brands cycle short, the weak independent innovation these present situations in China gradually. Setting up a bridge about fashion communication in different countries will have great contributions to the development of fashion in China. [Liang Zhang](#) is one of the top man models in our country. He has said that “Dad who can not cook is not a good model”.Thanks to a very hot show named“ Where are we going , dad?”, he is well known to all the society. He is invited by the many brands to take part in the Milan fashion week in 2014. Though great progress has made , we still not on the top fashion road , a lot things we should do in the future.

Learning from Milan fashion week, fashion has great meaning to both personal and society . Last, what we gain not only something about fashion but think how to make the dream in the display . Everyone has the right to struggle for dream if you want.

Greek myth color

By Haoming Gu130306117

The temple had left the ancients to the worship of the gods. They are holy, serious, give persons the oppressive feeling. Even if it in the picture, it also don't lack of dignity and mystery.

The most representative in the house of god is [Greek temple](#). According to the Parthenon temple, it is the temple of the Greek sacrifice to the gods, mainly to sacrifice to Athena. So it is also known as "The Parthenon Athena temple". The Parthenon is regarded as representative works of The Eric type architectural art. Is regarded as national treasure of Greece.

Athena in Greek mythology is a virgin. She is the goddess who is representative the wisdom, the war, the strategy, the fight, the handicraft industry and the reasons. The symbol of

her is the owl and the olive tree. It is said that she and Zeus has the same force, She is the most intelligent goddess, and she also has the wisdom and strength. The birth of Athena has a very legend. In Greek mythology, Zeus feared that his son is stronger than himself, So, he swallow his wife into the belly. Then he suddenly felt a headache, so he ordered the vulcan split his head, Athena is wearing armor to leap from it. So Athena was the continuation of Zeus, She performs the will of Zeus. Athena is the god of art, she has dexterous hands. and she can't stand the challenge of others. A Lydia girl who looks down upon the ability of Athena. And often boast if there is any chance she well beat the goddess Athena. dressed as a woman came to the earth, and then to accept the challenge of the girl. Finally the goddess win the match. Then the girl committed suicide because of shame, but the goddess changed her into a spider let her web forever!

The second is the Apollo temple. Delphi oracle of god in the Apollo temple can affect the person's destiny and the country's history. For instance, If ordinary citizens want to marry or want to know if their spouse is loyalty, they will instruct the gods.

Apollo was the god who is representative the music, the healing, the plague, the prophecy, the poetry and the archery, he also represents the bright and real. His representative beast is a crow. When Apollo was born, the sky was radiant golden light, and Apollo's eyebrows with a dazzling sun, the goddess of heaven are all glad and shout loudly. Apollo is known as the patron saint of Greek culture, he in charge of the music and the poetry. He can arouse all feelings that people poured into the hymns. At Olympus, he has gold lyre, with the sweet tone to command the chorus of the MUSES. Once the Apollo accept the challenge of human musicians to participate in a competition. After beat him, Apollo stripped his skin to punish his arrogance.

In addition, Greece still has a lot of myths legends. Greece is

a mysterious place, it's full of myth

Place of the prophet—Vatican

Have you ever heard a country full of mysteries which is the smallest all around the world?

By: Rulan Sheng 130306139 Class 1

When I first heard the name of Vatican, it must be in the Japanese Comic. Because there are many fantastic elements in the animation creations which referred to religions that grew up in Vatican prosperously. After that, I get a little information about Vatican from our geographical books that it's the smallest country around the world for its territorial area which is only 0.44 sq. km.

In order to be more close to the comic world, I become interested in this mysterious country. Let's view Vatican at once!

The Vatican is a city full of artistic breath and religious, although the Vatican in geography is a small country, but due

to the Catholic faith population in the whole world, in the political and cultural and other fields ,it has a worldwide influence.

If you want to travel Vatican, never miss the [St. Peter's Basilica](#) regarded as one of the holiest Catholic sites. Both the appearance and history of St Peter's make it worth visiting. One observer wrote: "St Peter's Basilica is the reason why Rome is still the center the civilized world. For religious, historical, and architectural reasons it by itself justifies a journey to Rome, and its interior offers a palimpsest of artistic styles at their best..." The basilica is cruciform in shape, with an elongated nave in the Latin cross form .The entire interior of St. Peter's is lavishly decorated with marble, reliefs, architectural sculpture and gilding . It is the most prominent building in the Vatican City. Its dome is a dominant feature of the skyline of Rome. In terms of history, It used to be a Saint Peter's burial site, then became Old St. Peter's Basilica, and by the end of the 15th century, it was planned to be rebuilt. The American philosopher Ralph Waldo Emerson described St. Peter's as "an ornament of the earth ... the sublime of the beautiful." We can get a glimpse of the country from the quotes by famous people.

After admiring the St. Peter's Basilica, we can move to the [St. Peter's Square](#) which is also the most famous and biggest square in Rome. It is a massive plaza located directly in front of St. Peter's Basilica in the Vatican City, At the center the square is a four-thousand-year-old Egyptian obelisk, erected at the current site in 1568. Gian Lorenzo Bernini designed the square almost 100 years later, including the massive Tuscan colonnades, four columns deep, which embrace visitors in "the maternal arms of Mother Church." A granite fountain constructed by Bernini in 1675 matches another fountain designed by Carlo Maderno dating to 1613.Each statue in the square is lifelike.

The people who had watched "[angels & demons](#)" may feel a lot

about Vatican, I am not the exception ,too. The most memorable scene for me in the movie is, the bishop of a pile of old man during a papal conclave are stuck together. Law: this is the Vatican during a papal conclave, so the election of personnel must be locked in isolated rooms, until the new Pope elected can they leave. Recently that vote a Pope is in March last year, Benedict xvi decided to resign due to old age and healthy relationship, becoming the first 600 years died not from dismissal of the Pope. German Pope Benedict xvi is respected by people, the most impressive is that he understand the language, countries can even read that is ready to perish of the old Greek and Hebrew. The Pope is the cardinal bell oreo from Argentina, Francis I was known as the Pope. This is a great historical change, because he is the first Hispanic ever to the Pope.

All in all, when you arrive in Vatican, welcome to feel the special humanities atmosphere there.
