Every year at this time, the street girls tend to be divided into two kinds: one is the legging, love repair leg pants; one is bare legs, selected shorts completely show the leg Slim pencil pants are also can show curve, completely end the effect as shorts, this dress will recommend several nice shorts, let us show a little guilty.

In my opinion, There are three importance for us to pay attention.

1. Colour

The difference is too small, too close to the tone easily confused with each other, the lack of layering; much difference, for Too intense than the overall tone is easy to

split. When the same kind of deep color with the best, in light of the three Level changes, with less than three levels seemed more monotonous, and easy to produce excessive levels Tedious, rambling effect. Such as red tone was the same color with red woolen skirt by Rose, Camel red sweater, dark purple shoes, red garnet earrings and makeup composition.

2. Material

The choice of fabrics to reflect the dressing grade , high-quality , high-end fabrics , most with a comfortable, absorbent, breathable , drape crisp, visual elegance , features and other aspects of soft touch ; while the choice of fabric should also pay attention to whether their own body type , I had to accompany my mother who had just given birth to go out to buy clothes , and then tried to know , the kind of fabric soft close is absolutely not to try .

2. Style.

There are many styles of clothes , formal wear, casual wear , home wear , and so on . Style choices , the first occasion was in line with their own dress , a dress is not what can wear out ; addition is well to show their body type , most people are not perfect figure , more or less some deficiencies, dressing to note Cangzhuo , but also highlight the beautiful parts of his body .

In fact, everyone has their own taste, so be sure to find your own taste and match clothes , clothing beauty more beautiful. We go shopping with friends , may have such feelings, others suggest that you wear fancy clothes body , you will feel uncomfortable , I feel it is not their own to wear , this feeling is very important. Low-key people do not choose too provocative clothes, but restrained personality who likes to wear the clothes are formal rules , but personality may idle much love loose casual models .

Clothes with a more artistic, but also requires skill.
